University Profile

ACADEMIC POSITIONS

The Chinese University of Hong Kong, Shenzhen Dec 2025 – Present
Postdoctoral Fellow in Operations Management
School of Management and Economics

EDUCATION

National University of Singapore Aug 2021 – Nov 2025
Ph.D. in Operations Research and Analytics Singapore
Supervisor: Yifan Feng Co-supervisor: Jussi Keppo

Harbin Institute of Technology Aug 2017 – Jun 2021
B.S. in Information Management and Information System Harbin, China

University of California, Berkeley Aug 2019 – May 2020
Academic Exchange Program Berkeley, USA
One-year academic exchange during undergraduate studies

RESEARCH INTERESTS

Platform Operations, Service Quality, Empirical Operations Management

WORKING PAPERS

1. **Revisiting Gig Labor Supply Curves: Evidence from a Logistics Platform** [SSRN]
   with Yifan Feng and Jussi Keppo
   Under review at MSOM
   Quasi-experimental evidence on how compensation affects worker participation and deliveries per active worker.

2. **Vehicle Relocation with Location-Based Compensation**
   with Bomin Bian, Zhenyu Hu, and Long He
   Under review at MSOM
   An equilibrium model of location-based relocation incentives under uncertain demand and driver competition.

3. **How Selective Should a Quality Certification Be? Evidence from a Ride-Hailing Field Experiment**
   with Yunan Ji, Qiuping Yu, and Yiming Zhang
   Complete draft
   A large-scale field experiment examining how certification coverage affects cancellations and passenger evaluations.

4. **Designing Quality Certification with Positive and Negative Feedback**
   with Yunan Ji, Qiuping Yu, and Yiming Zhang
   Complete draft
   This paper examines how quality certification should weigh positive and negative passenger feedback.

5. **Pricing a Vertically Tiered Menu: Which Price Moves the Market? Evidence from a Ride-Hailing Field Experiment**
   with Yunan Ji, Qiuping Yu, and Yiming Zhang
   Complete draft
   A field experiment that jointly randomizes low-tier and standard-tier prices to study market participation and demand across service tiers.

INDUSTRY EXPERIENCE

DiDi Research Collaborator — Aug 2026 – Present

Service Quality, Certification, and Pricing

- Develop three papers with DiDi's research and business teams on certification selectivity, the weighting of positive and negative feedback, and joint pricing across service tiers.
- Address a strategic question raised by DiDi's CEO by estimating the share of drivers providing low-quality service and assessing implications for customer lifetime value (LTV).
- Link driver service quality to subsequent passenger spending using high-dimensional driver–passenger fixed effects, with validation through pre-ride spending placebos, cross-period stability, and out-of-sample tests.

Digital Zhejiang Data Analyst — Oct 2020 – Jan 2021

Hangzhou, China

- Conducted data analysis using HiveQL and Alibaba Cloud to automate dashboards.

TEACHING EXPERIENCE

National University of Singapore

Teaching Assistant, DBA3713 Analytics for Risk Management — Aug 2023 – Dec 2023

Instructor: Prof. Yifan Feng

Teaching Assistant, DAO2702 Programming for Business Analytics — Aug 2022 – Dec 2022

Instructor: Prof. Peng Xiong. Led weekly tutorials for 90 undergraduate students.

HONORS AND AWARDS

Best Student Paper Award, Analytics for X — Dec 2023
National University of Singapore Research Scholarship — 2021–2025
First-Class Scholarship, Harbin Institute of Technology — Sep 2019
First Prize, 9th National College Students E-Commerce Competition — May 2019

CONFERENCE PRESENTATIONS

INFORMS Annual Meeting, San Francisco, USA — Nov 2026

Presented *How Selective Should a Quality Certification Be?*

CSAMSE, Shenyang, China — Jun 2026
INFORMS International Meeting, Singapore — Jul 2025
INFORMS Annual Meeting, Seattle, USA — Oct 2024
CSAMSE, Xiamen, China — Jul 2024
MSOM Conference, Minneapolis, USA — Jun 2024
POMS-HK International Conference, Hong Kong — Jan 2024
Analytics for X, Chongqing, China — Dec 2023
